# HORAGE

Wrist Measuring Tool

1. Print the page in A4 (297 mm × 210 mm), and cut out the measuring tape.

2. Wrap the measuring tape around your wrist where the bracelet will sit.

3. Slide the pointed end through the opening on the top and adjust the sizer to fit your wrist.

4. Read the measurement, if your wrist size is between 145 to 175mm, then a short strap fits you, and if your wrist size is between 155 to 195mm, then a long strap fits you. Keep in mind that this is for your reference only, since some might prefer a tighter fit, whereas others like a loose fit.
